Questionnaires for Evaluating On-Farm Field Days. The field day is generally a day-long event held at a local cooperating farm and typically includes demonstrations of specific management practices. One of the most common ways to evaluate the impact of on-farm field days is with a post-event questionnaire. But the most challenging aspect of evaluating the field day is determining what to measure.

Questionnaires for Evaluating On-Farm Field Days

consuming task, so expect to pay between \$350 and \$500, if not more, if you choose to have your land professionally surveyed. If you don't want to pay for this, you can survey the land yourself.

### How to Conduct a Property Survey: 12 Steps (with Pictures)

In developing countries like Ethiopia rural-urban migration affects development in both urban and rural areas. As such, this study aims at establishing the major causes and consequences of the movement of people from rural to urban areas. To achieve the objective 500 migrant household heads were selected randomly from three kebeles of the town.

### THE CAUSES AND CONSEQUENCES OF RURAL-URBAN MIGRATION TO ...

In a door-to-door survey, interviewers should know their assigned area reasonably well. However, if the survey covers confidential subjects, respondents usually give more honest answers to interviewers who are strangers. This is a problem with surveys on subjects such as health, but not usually a problem for media surveys.
