The isolation amplifier feature available on certain part numbers of the KX-155 Nav/Comm radio provides audio output from the KX-155 to drive a speaker. This feature was made available so that speaker audio was available for the KX-155 when used with Bendix/King's KA-134 audio selector panel which did not contain an internal speaker amplifier.

Over the phone we went through what needed to be replaced and basically the price was brought back down to the original quote. The extra cost were suggestions I guess and they didn't tell me this at first until I refused the repair. I decided to get it fixed again and if something else comes up they are going to just exchange the radio.

There are a few notable exceptions to the factory-only service requirements. The rugged KX 155/ 155A/165/165A nav/com radios, KI 256 flight command indicator for autopilots, and KLN 94 and 89B GPS navigators are still field-repairable. That means aircraft owners, flight schools, and others may visit local avionics shops for repairs to those models.

The gas discharge displays in the King radios is a known problem. Both the 155 and 165 suffer from that. King apparently has an LED fix for the gas discharge display, but it ain't cheap - not much less than the price used KX-155s are going for. If you have more than display problems with the radio I suspect your lowest cost solution is to find ...
