Planting A Rainbow

He seems to understand that plants grow from seeds now and we are looking forward to planting our own in the coming weeks. I was already a big fan of the "Edible Alphabet" (the very first book I had bought for my son), and I love the simple narrative that "Planting a Rainbow" has: plant a seed, take care of it, be patient, and you will be rewarded.

Amazon.com: Planting a Rainbow (9780152046330): Lois ...

"Planting a Rainbow" is a great kindergarten book to help reinforce colors!!!! The imagery in the picture book is awesome and engaging. Vibrant colors are definitely a good tool in this book, all of the flowers share colors and some are just single colors, as showcased by the child explanting how he creates a garden every year.

Planting a Rainbow by Lois Ehlert - Goodreads

In a companion to Growing Vegetable Soup, Lois Ehlert's signature stylized shapes and flat, bright colors bring forth a bountiful garden in Planting a Rainbow. Die-cut pages featuring one color per spread play up this celebration of seeds sprouting into an array of blossoms that boast the colors of the rainbow.
